

ICT Announces Discontinuation of High Power Series DC Power Supplies

ICT High Power Series rack mount models have reached their end of life and are being discontinued. We have provided a migration tool to assist you in determining which ICT power supply is the right substitute for your needs. The table below provides the ICT Digital Series, Pro Series, and N+1 Redundant Series model number alternatives for the discontinued High Power Series models shown.

We will have a limited quantity of the High Power Series models remaining. Please contact us for availability.
